The musical score is written in G major (one sharp) and 4/4 time. It consists of six staves of music. The first staff begins with a treble clef and a key signature of one sharp (F#). The rhythm is 4/4. The first two staves contain the main melody, with dotted pairs in the first two measures of each staff. The third staff begins with a repeat sign. The fourth staff contains a bridge or second ending. The fifth and sixth staves continue the main melody. Chords are indicated above the notes: D, F#m/C#, Bm/B, D/A, G, A, A7, D, G, A, A7, D, A7, A7, D, A7, D, D, A, Bm, F#m, G, D/F#, Em, A7, D, G, A, A7, D, A7, A7, D, A7, D.

Source/Origin: Spaelimenninir, *Malagrot*. Tutl, SHD066, 2003.

Tune Notes: From the liner notes, Jens Christian Svabo (1746-1824) was a linguist and ethnographer, but also a fiddler; he likely played for dances. In 1928 a manuscript was discovered in an attic that turned out to be Svabo's handwritten collection of tunes dated 1775. This was one of the tunes.

Mungalåten

As played by Eric & Kalle Sahlström

Musical score for Mungalåten, featuring four staves of music in 4/4 time. The melody is written in treble clef with a key signature of one sharp (F#). The score includes a repeat sign at the beginning and a triplet of eighth notes in the first staff.

Source/Origin: Eric och Kalle Sahlström, *Vi e ju Upleningar ve*, Valbo 1974. Jougo Music, JGOCD02, CD, 2004.

Tune Notes: The tune seems best accompanied with harmony, so I've omitted chords.

This is a tune from Munga in Uppland. According to the Swedish Wikipedia it was played by C. G. Englund, a nyckelharpa player from Munga at a fiddling competition in 1910, and immediately became very popular. The recording this is transcribed from is a concert recording, and the audience starts singing in the background part way through.

Spælimenninir Í Hoydølum

W. R. (Ronnie) Aim

Musical score for Spælimenninir Í Hoydølum, featuring six staves of music in 2/4 time. The melody is written in treble clef with a key signature of two sharps (F# and C#). Chord symbols (D, G, A7, A, E7, B7) are placed above the notes. The score includes a repeat sign at the beginning.

Source/Origin: Spælimenninir í Hoydølum, *Umaftur. Tutl SHD002CD*, 2000.

Tune Notes: Written for the band of the same name. It has too many measures to be used for a phrased contradance, but it would work very well for a grand march, and it would make a great polka. (I believe that it's actually a sönðerhoning but I can't find any supporting documentation.)

Olivia und Lars beim KulturNatten 2013 in NUUK, <https://youtu.be/nkxMGGH71Ss>, March 4, 2013.

Tune Notes: Elsewhere I present three additional transcriptions of this tune [Closer Look at a Few Tunes](#). Two are based on the playing of Olivia and Lars about whom I haven't found any information although they are excellent musicians. They change keys part way through and there are corresponding differences in the way they play it. One is based on the playing of Thomas Møller and Anders J. Ørts; it is quite different from the other.
Here I tried to keep the spirit of the tune while combining many of the most enjoyable variations into a single version that reflects how I like to play it. It really is a H:Greenland polka; I keep it with Scandinavian tunes for convenience.

Tune Notes: Written when I lived in Dover, NH. To my surprise it sounded more like a polska than anything else.

Karis Pers Polska

Tune Notes: This is a very well known Swedish polska, often used for a hambo. In Sweden both parts are generally played for double the length shown.

Road to Boston Polska

Peter Yarensky, 12-9-20

Musical score for Road to Boston Polska in 3/4 time, key of D major. The score consists of four staves of music with various chords and ornaments. Chords include D, G, A7, Em, D/F#, and A7/C#.

Tune Notes: Haven't you been wishing for years that you could play Road to Boston as a hambo?

This is a variation on Road to Boston that has been hinted at here and there for years. I've attempted it in the past with some success, but this version which came to me in the shower is the first I've heard or come up with that is clearly Road to Boston as a hambo and that also sounds at least vaguely Swedish.

Selmer Ramsey Waltz

The first four staves form the first system, and the last four staves form the second system. The music features a mix of eighth and quarter notes, often beamed together. Tune Notes: The tune should be played with a slight reverse dotted rhythm.

Selmer Ramsey (1914-1978) was from Minnesota and played for dances for many years. He made three records. I have two and this waltz isn't on either; I don't know if it's on the third. But it was very popular among upper midwestern Scandinavian fiddlers. This transcription is based on the playing of the Minnesota Scandinavian Ensemble.

Frankie's Kolomejka

Frankie Rodgers

The high "C" in the middle of the D part is a quarter tone sharp.

The musical score is written in treble clef with a 2/4 time signature. It consists of two systems of staves. The first system (A-C) contains the first 16 measures. The second system (D) contains the final 8 measures. Chords are indicated by letters above the notes. Ornaments are shown as small 'v' marks above notes. A 'Hey!' exclamation is placed above the final note of the second system. The score includes first and second endings for the final two measures of the second system.

Source/Origin: Frankie Rodgers & Gaby Haas, *Play for a Horilka Party*. Point Records, PS 302, 1968.

Tune Notes: As played by Frankie Rodgers.

So how did Frankie Rodgers come to write a kolomejka? In 2002 Albert Brien had a concert/workshop in the Fiddler's Loft in Kingston, NH with British Columbia fiddler Yvonne Hernandez. She played the tune and taught it during the workshop. I asked her that question. Her mother, who was in the audience called out that despite his name, Frankie was of Ukrainian background.

Source/Origin: Isidore Soucy et son Ensemble, *La Veillée chez Isidore*. RCA Victor, CPG/CPGS-215, 1968.

Tune Notes: This is a great recording from his radio show. In the third part the "+" represents a pluck. It used to be common to alternate with tapping ("x") the four corners of the fiddle with the bow. These days the tap is often replaced with a rhythmic chord on the A and E strings. The last time through he played a long string of taps. This likely involved going around the four corners of the fiddle and possibly going across the diagonals. This was often done in the middle of the tune as well as the end.
